

SOLO PRODUCT FACT SHEET

The Richie Brace®

Description:

The Richie Brace® is a custom ankle foot orthosis designed to treat chronic conditions of the foot and ankle. With a contoured balanced orthotic footplate articulated to adjustable semi-rigid lower leg uprights, the Richie Brace® is ideally suited to stabilize rotational forces at the midtarsal, subtarsal and talo-crural joints. Modifications and enhancements are available to add further restriction of motion in the sagittal, frontal and transverse plane. Solo Laboratories, Inc. is an authorized Richie Brace® distributor.

Indications:

- Adult acquired flatfoot secondary to PTTD
- Lateral ankle instability
- DJD of ankle or rearfoot
- Peroneal tendinopathy
- Dropfoot (restricted pivot or dynamic assist options).

Benefits:

- Control of first ray, midtarsal and subtalar joints
- Control of calcaneal inversion/eversion
- Pure, unrestricted sagittal ankle motion
- Control of ankle inversion/eversion
- Control of tibial rotation on foot
- Optimal shoe fit

Best Suited For:

Non-operative approach to the most challenging pathologies treated by the foot or ankle specialist.
