

## SOLO PRODUCT FACT SHEET

### The Little Richie<sup>®</sup>

#### **Description:**

**The Little Richie Brace<sup>®</sup>** is an alternative to traditional AFO therapy for the pediatric patients. Modeled after the successful Richie Brace<sup>®</sup> for adults, the Little Richie Brace<sup>®</sup> combines a custom balanced functional foot orthotic with a semi-rigid ankle brace.

#### **INDICATIONS:**

- For children age 1 to age 12
  - Cerebral palsy
  - Muscular dystrophy
  - Talipes
    - Equino varus
    - Calcaneal valgus
  - Tarsal coalition

#### **BENEFITS:**

- Intrinsic control of midtarsal and subtalar joints
- Transverse and frontal plane control of the foot
- Pure sagittal plane ankle movement
- Low bulk, sports style brace
- Non-medical sports appearance
- Versatile clinical applications

**Casting is Required**—Please follow Richie Brace<sup>®</sup> casting instructions and provide a mid-calf measurement of circumference. Or, use STS AFO casting sock.
